

PICANOL HOOFDKANTOOR

leper

Sustainable new construction project for 450 employees adjacent to the current site in Ypres. +/- 6000m² offices and conference rooms (20,000m² incl. outdoor spaces).

Status

2019 - 2025

Services:

Industrial MEP

Sectors:

Office & Commercial: Office buildings

Client:

NV ALHEEMBOUW

Architect:

Atelier d'Architecture Van Oost SPRL

Area:

20000 m²

The challenge within this project lay in the extensive coordination of the technical installations (HVAC, plumbing, electricity, and sprinklers) within a high-tech office building. An optimal balance had to be found between the functional requirements and the aesthetic vision of the architect, with the integration of sustainable and high-quality techniques within a complex and architecturally strong design.
